

Nineteenth-Century Philosophy, Third Edition (Philosophic Classics, Volume IV)

This anthology of readings in contemporary Western philosophy focuses on 19th-century philosophers who represent a variety of responses to the issue of their day: whether or not there was a knowable, nonhuman rational order upon which thinking persons could willfully choose to act. The selections are readable and accessible, yet remain faithful to the original works. Accompanying the text are drawings, diagrams, photographs, and a timeline; all of which allow the reader to really study the major philosophical thinkers of the 19th-century: Bentham, Wollstonecraft, Fichte, Hegel, Schopenhauer, Comte, Feuerbach, Mill, Kierkegaard, Marx, Peirce, James, and Nietzsche. For anyone interested in owning a collection of works from the greatest philosophical thinkers in the 19th-century.
