

Einstein 1879 - 1979: The Exhibition

The Jewish Nation and University Library is pleased to participate in the events celebrating the Albert Einstein Centenary by presenting an exhibition illustrating his life, his scientific work, his thoughts, and his links with the Jewish people, its fate and its national rebirth. With this exhibition the Library honors the memory of one of the giants of the spirit, a gift from the Jewish people to the culture of mankind, a scientist who revolutionized accepted ideas about space and time and about the foundations of exact science, fertilized thought, and had a decisive influence on the various philosophic trends of our time. Text presented in both English and Hebrew.
