

The Fry Chronicles: An Autobiography

Thirteen years ago, *Moab Is My Washpot*, Stephen Fry's autobiography of his early years, was published to rave reviews and was a huge best seller. In the years since, Stephen Fry has moved into a completely new stratosphere, both as a public figure, and a private man. Now he is not just a multi-award-winning comedian and actor, but also an author, director, and presenter. In January 2010 he was awarded the Special Recognition Award at the National Television Awards. Much loved by the public and his peers, Stephen Fry is one of the most influential cultural forces in the country. This dazzling memoir promises to be a courageously frank, honest and poignant read. It will detail some of the most turbulent and least-well-known years of his life, with writing that will excite you, make you laugh uproariously, move you, inform you, and, above all, surprise you.
