

Camp Good Days and Special Times: The Legacy of Teddi Mervis

In 1979, nine-year-old Elizabeth Teddi Mervis was diagnosed with a brain tumor. Not able to experience even the simplest joys of childhood, she felt frightened, isolated and alone. Her father wanted to change all that, not only for his daughter but also for other children with cancer. With the support of thousands in and outside of Rochester, New York, Camp Good Days created a new world for those touched by cancer, violence or any other affront to a child's dignity. The spirit and legacy of Teddi Mervis live on in the success of the organization she inspired.
