

## The Middle Mind: Why Americans Dont Think for Themselves

Acclaimed social critic Curtis White describes an all-encompassing and little-noticed force taking over our culture and our lives that he calls the Middle Mind: the current failure of the American imagination in the media, politics, education, art, technology, and religion. Irreverent, provocative, and far-reaching, White presents a clear vision of this dangerous mindset that threatens Americas intellectual and cultural freedoms, concluding with an imperative to reawaken and unleash the once powerful American imagination. The Middle Mind is pragmatic, plainspoken, populist, contemptuous of the Rights narrowness, and incredulous before the Lefts convolutions. It wants to protect the Arctic National Wildlife Refuge, and has bought an SUV with the intent of visiting it. It even understands in some indistinct way how that very SUV spells the Arctics doom.
