

Design and Implementation of Web-Enabled Teaching Tools

As the multifaceted environment of the Internet continues to evolve, web accessibility has become a major issue in terms of providing effective communication to the public. Although web accessibility guidelines exist, there are some academic institutions and areas of industry that have not developed guidelines to ensure that web documents are accessible. The primary objective of Design and Implementation of Web-Enabled Teaching Tools is to explore the myriad of issues regarding web accessibility, specifically focusing on those areas that cover the design and implementation of web-enabled teaching tools.
