

New Zealand Unwrapped - An Insiders Guide to Travel and Money Saving in New Zealand

New Zealand Unwrapped gives you an insiders guide to travel and money saving in New Zealand. This book is aimed at backpackers, working holiday makers, long term visitors and people considering relocating to New Zealand. This book will show you where to go, when to go and how to go about it. Tried and tested advice on transport options will be passed on to the reader such as which tour company to travel with, which type of campervan to hire, or how to buy your transport and get the maximum return on it when you sell it. Suggested itineraries will tell you what to watch out for when planning a trip around this deceptively large country. If you're coming to work in New Zealand you'll be informed about seasonal work, volunteering and where to go for career-based jobs. When you come to love New Zealand so much you decide to stay, you'll be informed about how to save a considerable amount of money when entertaining, buying day to day goods like food and clothes, to travelling around - most of which can be used by travellers, and aren't even utilised by most Kiwis. When settling down in New Zealand, whether it be long term, or just living in a place for a couple of months different ways of meeting meeting are discussed so you can feel like you're at home as quickly as possible. The author has experienced New Zealand as a backpacker, then returned several years later to become a resident. After living in the North Island, the South Island is now home. This book passes on a whole bunch of experiences, time saving information, and real practical guides to transport options. The author has saved thousands of dollars during his time in NZ, owned a car that only ended up costing the equivalent of \$20 per week rental, and has made 30% profit on sale of a camper van after two years. New Zealand Unwrapped - feel at home before you even get on the plane.
