

Defending Justice As Reciprocity: An Essay on Social Policy and Political Philosophy (Mellen Studies in Social Work, V. 6)

The sharing of ideas is a fertile process, but is made difficult when there is more than one discipline involved. In seeking to apply the analysis of political philosophy to the concerns of social policy this work often challenges the prevailing ideas of both traditions, but it does not wallow in the difficulties or allow controversies surrounding some sacred cows in either camp to obscure its intention to supply debate and discussion that is both intriguing and stimulating, if not at times controversial.
