Contains robust case studies depicting every type of philanthropy (corporate, community, operating, specialized, and large private and family foundations) Includes easy to use Key Takeaways tailored for donors at the beginner and experienced levels of catalytic philanthropy Authors are internationally-acclaimed philanthropic, nonprofit, and corporate social responsibility strategy experts who frequently speak and train on high-impact philanthropy In good economic times or bad, this book provides guidance for givers to increase the impact of their charitable resources and go beyond check-writing to help solve problems and change the world.
