

Dutchmans Gold or My Great Grandfathers Adventure in Australia, 1850s Style

While researching his family history the author, Ron Vlietstra, found a small book published by his Dutch great-grandfather in 1868. This nugget of history describes the young Dutchmans wild adventures as he sailed the Pacific and labored on farms and goldfields in colonial Australia. Ron has included the original Dutch version, as well as an English translation, in a broader story of his familys search for identity.
