

East of the Jordan: A Record of Travel and Observation in the Countries of Moab, Gilead and Bashan; During the Years 1875-1877 (Classic Reprint)

Excerpt from East of the Jordan: A Record of Travel and Observation in the Countries of Moab, Gilead and Bashan; During the Years 1875-1877

The name Palestine occurs for the first time in Herodotus. Like its Hebrew equivalent, Pelesheth, or land of wanderers, it meant only Philistia. In the later Greek and Roman period it was applied, as we apply it, to the whole country occupied by the Israelites on both sides of the Jordan. But as Canaan, the oldest of all the names, meant only the lowland, or country west of the Jordan, so now most people, when they think of Palestine, give it the same narrow boundaries. Eastern Palestine hardly comes into the account. And yet the historic associations belonging to the country east of the Jordan are rich and various. Two and a half of the twelve tribes that came out of Egypt under Moses chose that side of the river for their home. Syrian, Assyrian, and Chaldean armies marched in and out there. Some of the disbanded veterans of Alexander settled there. It was beyond the Jordan that John the Baptist began and ended his official career. Nearly six months of our Lords brief ministry were spent on the same side of the river. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
