

The Economics of Education

The Economics of Education is written to provide a vade mecum, or diploma program, for both undergraduate and postgraduate students undertaking formal courses in economics of Education. The coverage of the subject matter is extensive, covering major titles such as the concept of economics of education, education and jobs, investment theory in education, the human capital concept, costs of education, cost-benefit analysis, efficiency in education, educational finance, and program evaluation and review technique, also known as PERT. About the Author: Samuel Akinyemi, PhD, lives in Lagos, Nigeria. He is a prolific writer and a researcher in educational management and especially in economics of education. He is a university lecturer at Lagos State University. As a university don, he has written four books and several research publications in both national and international journals.
