

## Exploring the Marquesas Islands

Sailing to the South Pacific, whether from California or Panama, the first landfall is the Marquesas. Joe Russell, who has lived and sailed in the Marquesas, documents this beautiful little-known place. Volcanic, tropical beauty and ease of navigation, make these islands some of the most interesting and dramatic cruising grounds in the world. The Marquesans-the islands greatest asset-are proud of their history. They presume friendship with everyone, sharing their legends and traditions. Includes history, language guide, chart diagrams, mileage and heading tables, and recent archeology.
