

Functional Imaging and Modeling of the Heart: 7th International Conference, FIMH 2013, London, UK, June 20-22,2013, Proceedings (Lecture Notes in Computer Science)

This book constitutes the refereed proceedings of the 7th International Conference on Functional Imaging and Modeling of the Heart, held in London, UK, in June 2013. The 58 revised full papers were carefully reviewed and selected from numerous initial submissions. The focus of the papers is on following topics: image driven modeling, biophysical modeling, image analysis, biophysical modeling, cardiac imaging, parameter estimation, modeling methods, and biomedical engineering.
