

A Perfect Crime: A First-Person, Victims Report on Organised Group Stalking in Australia

This book is not a crime fiction novel. This is a firsthand report and a true report on how governments or large organisations have succeeded in planning and executing the commission of a perfect crime in Australia. It reports on organised, aggravated group stalking attacks being carried out by groups or gangs of persons acting covertly under the cover of darkness with use of advanced electronic devices without cause or regard for basic human rights. Evidence in detail is provided in Appendices to the book taken from firsthand observations or from transcriptions of contemporaneous handwritten notes set down daily in six years of personal diaries. Due to the perpetrators clever use of highly skilled individually contracted surveillance role players in squads of differing and rotating stalker offenders and their training and use of advanced stand-off electronic scanning, listening, sound projection equipment it has proven nearly impossible for the victim or law enforcement authorities to gather enough credible reliable and sufficient evidence to support the swearing out of an official criminal complaint before the court. Therefore, we have the perfect, practically unsolvable crime.
