

# Hong Konged: One Modern American Familys (Mis)adventures in the Gateway to China

In this alternately hilarious and heartrending memoir, acclaimed writer and editor Paul Hanstedt recounts the true story of his familys recent sojourn to Hong Kong. Hanstedt and his wife and three children--aged 9, 6, and 3--lived in Hong Kong for a year, a year beset by culture clash, vicious bullies, hospital visits, M&Ms, and the worst traffic jam youve ever seen. Through the eyes of the earnest if sometimes clueless Hanstedt family, youll discover a world youve never known before. But in the end, Hong Konged is about place and family and what it is that makes us human--no matter who we are or where we live.
