

New Zealand Panorama

It is now nearly 20 years since Warren Jacobs, one of the nations most widely published scenic photographers, published New Zealand Panorama, a collection of images that in just 32 pages neatly encapsulates the countrys landscape and natural history, its people and their vibrant culture. The original Panorama has been retired after a highly successful sales history, and this new book adopts both its title and scope. The content of the new book is a collection of Wellington photographer Rob Suisted's finest pictures, captioned and grouped under such themes as Landscape, Wildlife, Geothermal activity, People, History, Agriculture, Sport/Leisure/Adventure.
