

## My Life as a Birder Vol. 2: A Collection of Stories from Antarctica to Zululand

After their hobby became a passion, Harriet Davidson and her husband, Bill, spent their lifetimes birding, first across the North American continent, then all around the world. Harriet has identified 5,343 birds, including all seventeen penguin species. This second collection of Harriets fascinating stories includes more accounts of bird chases and travel adventures, and her reflections on the people, places, and birds she encountered on her journeys.
