

Hidden Light: The 1st Filipino Priests (Saguinsin Pub Series 1)

This work is among the most important contributions to Philippine history that any historian has made. Even the late authority on the subject of the origins of the Filipino clergy, Father Horacio de la Costa, could do no more than mention a few names in passing without any data or details. I remember how excited I was when I first began to share Dr. Santiago's findings with my classes in Philippine History at the University of the Philippines with his permission before he ever published. The first part tells the historic story of what happened while the other two are biographies. Naturally, there is repetition but I don't think it matters. Some readers will be interested in the first part and others will want the particular details of the other two. --Dr. William Henry Scott Philippine Historian

The Hidden Light is based on local findings unearthed by Dr. Santiago while working in local archives regarding the first Filipinos to be raised to the priesthood of the Catholic Church. Enough significant new data on the early Filipino priests ordained in the seventeenth and eighteenth centuries and on the vicissitudes of the new Seminary of San Clemente are presented to alter considerably the widely-accepted, prejudiced accounts of the early Filipino clergy and modify certain positions of the Philippine church historians on the first Filipinos ordained. The analysis of the Rosario Parish Document of 1721 is particularly informative. --Fr. Joseph Roche, S.J. Editor, Philippine Studies Ateneo de Manila
