

Maximilien de Lafayettes Paintings, Prints and Lithographs in Black and White. Volume 2.

5th Edition. Volume 2 of a set of 3 volumes. Maximilien de Lafayettes paintings, illustrations, lithographs and posters in black and white. A magnificent selection from his work during the early seventies and eighties. A rare opportunity that provides a general outlook at his pioneering Neo-Cubism movement in Europe. Unfortunately, this genius, and master of colors did not pursue a most promising career, said Italy's great Severini. The book is lovely, elegantly printed and produced with meticulous attention to his early work, blended with unusual visions, and a fascinating exploration of the esoteric, yet ultra modern conception/design of the contemporary French-Italian school of abstract-neo cubism.
