

## Learning to Work: Experiences at Pilot Flying J and in life

A gem of a book! Thomas overcomes challenges that face individuals with disabilities with a sense of humor and hard work. Thomas gets his first job after high school and begins to learn workplace skills, and he is delightful! Working with Karla, who is employed as a job coach after 20 years being a homemaker, they find they both have lessons to learn. After work, they meet up and record their experiences in this short memoir. Learning to Work is a viable, inexpensive alternate to remedy many modern problems! Pick up a copy of this book and when you are finished, you will have made two new friends and you will have discovered something you would like to improve about yourself. Enjoy!
