

## TravelsWithSheila Guide: Fast & Easy Easter Island, Chile

Easter Island is that island in the South Pacific with the giant statues that some people believe were erected by aliens! Almost 1,000 of these monoliths (human statues) carved from a single piece of stone are scattered all over Easter Island and a Must see to be believes unforgettable sight. Plan a visit now! The volcanic statues are deteriorating and becoming plain rock. Easter Island is also a UNESCO World Heritage Site and one of the most remote inhabited islands in the world, 3,512 kilometers/2,182 miles away from Santiago. Known as Rapa Nui to the locals, the volcanic island is a center of Polynesian culture, although Chilean in nationality. It seems like some people work their entire life to take an Exotic Vacation, when in reality, such a trip can be had for less than taking the family to DisneyWorld, even for very remote Easter Island. Let Travels With Sheila teach you how to Travel the World on a Budget, share exotic locations known only to locals, and most importantly, ease your fears about languages, currencies, personal safety and staying healthy.
