

The Playworkers Handbook

The Playworkers Handbook is the comprehensive guide to all aspects of working with children and young people in a variety of play settings, including after-school clubs, breakfast clubs, holiday playschemes and community projects. It is also the ideal resource for all students and tutors on S/NVQ Levels 2 and 3 courses in Playwork. The Playworkers Handbook clearly links theory and practice by exploring different theoretical aspects of play and child development and relating these to supporting childrens play. Theoretical issues are clearly explained, giving students a sound knowledge base to complement their practical skills. The topics covered include: organising the play environment; play and child development; planning and supporting self-directed play; maintaining childrens health, safety and security; child protection; promoting positive working relationships; and, developing professional practice. The Playworkers Handbook is the ideal book for playwork students and tutors, and experienced playworkers. It includes exercises to develop playworkers professional skills, as well as key tasks (linked to the latest NVQ Levels 2 and 3 in Playwork) to contribute to a portfolio of evidence.
