

My Word

So you want to work in television. You want a book that's going to be honest about it, that's going to tell you how it works, how talent will always out and that the best will always come through. Then I suggest you go to the biography section of your local bookshop and pick up a copy of Bob Monkhouse's autobiography. If however you want to read the truth about an industry rife with nepotism, people running around like headless chickens, cocaine snorting and general drug abuse, sexual excess with threesomes, foursomes, backbiting, power struggles, plagiarism and venomous egos venting their bag of inadequacies then read on. Because that was us lot on the Word. As a show the Word influenced just about every light entertainment magazine format from Richard and Judy, Chris Evans and Jonathon Ross to whole channels like Sky One, and the condescension which often masqueraded as humour on the Word has affected the whole of entertainment from comedy and quiz shows to the craze for pushing the boundaries of reality TV. Yes we were responsible for introducing all the wannabes who would screw Quasimodo and literally eat a shit butty if it meant they could get on the box all a fore runner of the Big Brother type. The horrible realisation that dignity wasn't so much for sale as being thrown away like confetti at a wedding a direct descendent of The Circus Maximus and the Victorian Freak show. What did I gain from my involvement with this show? Disliked by my bosses and most of the Channel 4 executives, hated by the press and a proportion of my peers, a radio career more or less in tatters, a television career that didn't exist, a bad case of piles, an anal fissure, alopecia and an even more twisted attitude. And do you know what I'd do it all again tomorrow.
