

Higher Education Financing in the New EU Member States: Leveling the Playing Field (World Bank Working Papers)

Higher Education Financing in the New EU Member States summarizes the experiences to date of the new EU countries (the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, and Slovenia?the EU8) in the reform of higher education systems in a period of growing demand; changing patterns of access; rapid expansion and increased participation rates; and an apparent dilution of average quality. The study discusses the growing experience with a variety of financing mechanisms in EU8 countries, drawing on detailed country case studies, and seeks to develop some useful lessons from experience, mindful that each country will continue to develop its own solution based on national priorities.
